12 UNITED STATES DISTRICT COURT
13 SOUTHERN DISTRICT OF CALIFORNIA

14 MAX POURSHAFIE, Individually and On Behalf
15 of All Others Similarly Situated,

16 Plaintiff,

17 vs.,

18 ACCREDITED HOME LENDERS HOLDING
19 COMPANY, JAMES A. KONRATH, JOHN S.
20 BUCHANAN, JOSEPH J. LYDON, STUART D.
21 MARVIN, DAVID E. HERTZEL, and JEFFREY
22 W. CRAWFORD

23 NO. 07-cv-0531-BTM POR

24 CLASS ACTION COMPLAINT

25 JURY TRIAL DEMANDED

26 Plaintiff, Max Pourshafie ("Plaintiff"), alleges the following based upon the investigation by
27 Plaintiff's counsel, which included, among other things, a review of the Defendants' public
28 documents, conference calls and announcements made by Defendants, United States Securities and
Exchange Commission ("SEC") filings, wire and press releases published by and regarding
Accredited Home Lenders Holding Co. ("Accredited" or the "Company"), securities analysts'
reports and advisories about the Company, and information readily available on the Internet, and
Plaintiff believes that substantial additional evidentiary support will exist for the allegations set forth
herein after a reasonable opportunity for discovery.

NATURE OF THE ACTION AND OVERVIEW

1. This is a federal class action on behalf of purchasers of the common stock of Accredited between November 1, 2005 and March 12, 2007, inclusive (the "Class Period"), seeking to pursue remedies under the Securities Exchange Act of 1934 (the "Exchange Act").

2. Accredited and its subsidiaries operate as a mortgage banking company in the United States and Canada. The company originates, finances, securitizes, services, and sells "non-prime" or "sub-prime" mortgage loans secured by residential real estate. The Company focuses on lending to individuals whose borrowing needs are generally not fulfilled by traditional financial institutions because they do not satisfy the credit, documentation or other underwriting standards prescribed by conventional mortgage lenders and loan buyers.

3. The Complaint alleges that, throughout the Class Period, Defendants failed to disclose material adverse facts about the Company's financial well-being, business relationships, and prospects. Specifically, Defendants failed to disclose or indicate the following: (1) that the Company was improperly accounting for loan losses as conditions in the sub-prime industry deteriorated; (2) that as such, the Company's financial statements were materially misstated; (3) that the Company's underwriting guidelines were not adequately restrictive for borrowers in the sub-prime loan market; (4) that the Company would be forced to further tighten its underwriting guidelines which would have a material impact on its future loan productions; (5) that the Company was operating without effective risk management policies and procedures in place; (6) that the Company lacked adequate internal and financial controls; and (7) that, as a result of the above, the Company's statements about its financial well-being and future business prospects were lacking in any reasonable basis when made.

4. On February 14, 2007, Accredited reported the Company's financial and operating results for the fourth quarter and year ended December 31, 2006. The Company reported net income of \$57.7 million for the year and "strong liquidity." Commenting on the results and condition of the Company, Defendant Konrath stated "[w]hile the current operating environment remains challenging, our seasoned management team, talented employees and bottom-line business model give us confidence that we will navigate successfully through the current conditions." The Company

15 6. On the release of this shocking news, shares of the Company's stock declined \$7.43
16 per share, or 65 percent, to close on March 13, 2007 at \$3.97 per share, on unusually heavy trading
17 volume.

19 7. The claims asserted herein arise under and pursuant to Sections 10(b) and 20(a) of the
20 Exchange Act, (15 U.S.C. §§ 78j(b) and 78t(a)), and Rule 10b-5 promulgated thereunder (17 C.F.R.
21 § 240.10b-5).

9. Venue is proper in this Judicial District pursuant to Section 27 of the Exchange Act, 15 U.S.C. § 78aa and 28 U.S.C. § 1391(b). Many of the acts and transactions alleged herein, including the preparation and dissemination of materially false and misleading information, occurred in substantial part in this Judicial District. Additionally, the Company maintains its principal place

1 of business in the District.

2 10. In connection with the acts, conduct and other wrongs alleged in this complaint,
3 Defendants, directly or indirectly, used the means and instrumentalities of interstate commerce,
4 including but not limited to, the United States mails, interstate telephone communications and the
5 facilities of the national securities exchange.
6

7 PARTIES

8 11. Plaintiff, Max Pourshafie, as set forth in the accompanying certification, incorporated
9 by reference herein, purchased Accredited common stock at artificially inflated prices during the
10 Class Period and has been damaged thereby.

11 12. Defendant Accredited Home Lenders Holding Company is a Delaware corporation
12 with its principal place of business located at 15090 Avenue of Science, San Diego, California.
13

14 13. Defendant James A. Konrath ("Konrath") was, at all relevant times, the Company's
15 Chief Executive Officer ("CEO") and Chairman of the Board of Directors.

16 14. Defendant John S. Buchanan ("Buchanan") was, at all relevant times, the Company's
17 Chief Financial Officer ("CFO").

18 15. Defendant Joseph J. Lydon ("Lydon") was, at all relevant times, the Company's
19 President and Chief Operating Officer ("COO").
20

21 16. Defendant Stuart D. Marvin ("Marvin") was, at all relevant times, the Company's
22 Executive Vice President of Finance and Capital Markets.

23 17. Defendant David E. Hertz ("Hertz") was, at all relevant times, the Company's
24 General Counsel.

25 18. Defendant Jeffrey W. Crawford ("Crawford") was, at all relevant times, the
26 Company's Director of Operations.

27 19. Defendants Konrath, Buchanan, Lydon, Marvin, Hertz, and Crawford are
28 collectively referred to hereinafter as the "Individual Defendants." The Individual Defendants,

1 because of their positions with the Company, possessed the power and authority to control the
 2 contents of Accredited's reports to the SEC, press releases and presentations to securities analysts,
 3 money and portfolio managers and institutional investors, i.e., the market. Each Defendant was
 4 provided with copies of the Company's reports and press releases alleged herein to be misleading
 5 prior to, or shortly after, their issuance, and had the ability and opportunity to prevent their issuance,
 6 or cause them to be corrected. Because of their positions and access to material non-public
 7 information available to them, each of these Defendants knew that the adverse facts specified herein
 8 had not been disclosed to and were being concealed from the public, and that the positive
 9 representations which were being made were then materially false and misleading. The Individual
 10 Defendants are liable for the false statements pleaded herein, as those statements were each "group-
 11 published" information, the result of the collective actions of the Individual Defendants.

12 SUBSTANTIVE ALLEGATIONS

13 Background

14
 15
 16 20. Accredited and its subsidiaries operate as a mortgage banking company in the United
 17 States and Canada. The company originates, finances, securitizes, services, and sells "non-prime" or
 18 "sub-prime" mortgage loans secured by residential real estate. The Company focuses on lending to
 19 individuals whose borrowing needs are generally not fulfilled by traditional financial institutions
 20 because they do not satisfy the credit, documentation or other underwriting standards prescribed by
 21 conventional mortgage lenders and loan buyers.

22 Materially False and Misleading 23 Statements Issued During the Class Period

24
 25 21. The Class Period begins on November 1, 2005. On this day, Accredited issued a
 26 press release entitled "Accredited Announces Q3 2005 Results; Company Sets Quarterly Records for
 27 Net Income, Cost to Originate, Loans On-Balance Sheet, and Originations." Therein, the Company,
 28 in relevant part, stated:

Accredited Home Lenders Holding Co. (Nasdaq:LEND), a nationwide mortgage company specializing in non-prime residential mortgage loans, today announced that net income for the quarter ended September 30, 2005 was \$41.3 million, or \$1.87 per share on a fully-diluted basis, an increase of 15.1% compared to net income of \$35.9 million, or \$1.66 per share, for the comparable period in 2004. Total net revenues for the quarter increased by 19.8% to \$151.8 million from \$126.6 million for the comparable period in 2004. Net cost to originate mortgage loans was 1.57% for the quarter, compared to 1.92% for the third quarter of 2004.

Chairman and CEO James Konrath said, "Accredited continues to realize its profitability targets, despite a challenging environment. These third quarter results demonstrate the effect of our unwavering focus on reducing costs to drive profitability. Our cost to originate reached a record low of 1.57%, while our on-balance sheet portfolio continued to grow."

Mr. Konrath added, "Our results reflect a proven business model, built on consistent operating disciplines, excellent business partnerships, and experienced and talented employees. We remain confident in our ability to grow our business for the remainder of 2005 and beyond."

Third Quarter Operational Highlights

- Cost to originate new loans reached an all-time record low of 1.57% of the loan amount.
- Loans on-balance sheet reached a record principal balance of \$9.1 billion at September 30, 2005, an increase of \$3.1 billion, or 52.8%, from September 30, 2004.
- Portfolio income (net interest income after provision) was \$60.4 million, compared to \$46.0 million in Q3 2004, an increase of 31.4%. As a percentage of total net revenues, portfolio income increased to 39.8% in Q3 2005 from 36.3% in Q3 2004. The company estimates that this ratio is also representative of the portfolio's contribution to profitability.
- Record quarterly mortgage origination volume totaled \$4.5 billion, compared to \$3.2 billion in Q3 2004, an increase of 39.7%.

* * *

The 19.8% increase in total net revenues from Q3 2004 to Q3 2005 resulted primarily from increases in net interest income after provision and gain on sale of loans. Net interest income after provision increased 31.4% from \$46.0 million in Q3 2004 to \$60.4 million in Q3 2005, primarily due to the larger loan portfolio, partially offset by a smaller net interest margin percentage. While the weighted average coupon increased during the quarter, it was more

than offset by higher borrowing costs. The increase in the size of the loan portfolio from Q3 2004 resulted from four quarterly securitizations structured as financings and a higher balance of loans held for sale and securitization. The gain on sale of loans increased 9.8% from \$78.0 million in Q3 2004 to \$85.6 million in Q3 2005 primarily due to higher volume of whole loan sales for cash, offset in part by lower premiums. The company's average whole loan premiums, net of hedging, decreased from 3.50% in Q3 2004 to 3.07% in Q3 2005. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Total operating expenses increased 18.2% from \$66.4 million in Q3 2004 to \$78.5 million in Q3 2005, due primarily to the costs associated with larger loan volume. Salaries, wages, and benefits expense increased by 13.1% from \$42.8 million in Q3 2004 to \$48.4 million in Q3 2005 due primarily to the growth in the number of employees and increased commission and bonus costs related to higher loan originations, offset in part by greater efficiency. General, administrative, and other expenses increased by 27.4% from \$23.6 million in Q3 2004 to \$30.1 million in Q3 2005 due to increases in loan volume, number of staff, and number of locations.

Loan Originations

The company originated \$4.5 billion of mortgage loans for the quarter ended September 30, 2005, compared to \$3.2 billion of mortgage loan originations in Q3 2004, an increase of 39.7%.

Wholesale and retail originations for the quarter represented 90% and 10%, respectively, of total loan production, generally consistent with prior periods.

The company's net cost to originate mortgage loans was 1.57% for the quarter, compared to 1.92% in Q3 2004 and 1.73% in Q2 2005. Management believes this calculation is beneficial to investors because it provides a measurement of the efficiency of the origination process. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Loan Dispositions

During Q3 2005, \$3.0 billion of mortgage loans were sold in whole loan sales for cash, and \$1.1 billion of mortgage loans were securitized. The company's average whole loan premiums, net of hedging, decreased from 3.50% in Q3 2004 to 3.07% in Q3 2005. At the end of the third quarter, \$810.8 million of mortgage loans were held for a fourth quarter 2005 securitization, and \$2.4 billion of mortgage loans were held for sale.

Portfolio Performance and Loan Servicing

The company's total serviced portfolio equaled \$9.2 billion at September 30, 2005. The serviced portfolio increased 49.4% from \$6.1 billion at September 30, 2004. This was primarily due to the company's quarterly securitization program and an increase in the loans held for sale. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) were 1.95% of the serviced portfolio at September 30, 2005, and 1.79%, 1.72%, and 1.74% for the three previous quarters.

Liquidity

The company had \$5.1 billion in total warehouse credit capacity at September 30, 2005, including \$1.0 billion in its asset-backed commercial paper conduit, and \$316.5 million in available cash and additional liquidity. At the end of September, the company had used \$3.1 billion of this capacity.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an adjusted leverage ratio, which was 14.5 times at September 30, 2005. Additional detail concerning the company's leverage measures can be found in the Financial Summary at the end of this release.

* * *

Earnings Guidance

The increase in the portfolio, the reduction in our cost to originate, and the company's strong results for the first three quarters of 2005 provide the basis for reiterating earnings guidance of \$7.05 per share for the total year 2005. The forecast for the balance of 2005 assumes:

- Origination volume consistent with or slightly higher than the previous two quarters
- Whole loan premiums below the third quarter as rate increases have lagged increases in the cost of funds in the non-prime mortgage origination market
- Continued focus on the cost of origination
- Continued portfolio growth

Consistent with its practice in prior years, the company plans to issue 2006 guidance before the end of the year; however, management reaffirms its goal of 15% average annual growth in earnings per share. [Emphasis added.]

22. On November 9, 2005 Accredited filed its Quarterly Report with the SEC on Form 10-Q. The Company's Form 10-Q was signed by Defendants Konrath and Buchanan, and reaffirmed the Company's financial results previously announced on November 1, 2005.

23. The Company's Form 10-Q also contained Sarbanes-Oxley required certifications which stated:

I, [James A. Konrath / John S. Buchanan], certify that:

1. I have reviewed this Form 10-Q of Accredited Home Lenders Holding Co.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13(a)-15(f) and 15(d)-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal controls over financial reporting, or caused such internal controls over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or persons performing the equivalent function):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

I, [James A. Konrath, Chief Executive Officer / John S. Buchanan, Chief Financial Officer] of Accredited Home Lenders Holding Co. (the "Registrant"), do hereby certify in accordance with 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, based on my knowledge:

(1) the Quarterly Report on Form 10-Q of the Registrant, to which this certification is attached as an exhibit (the "Report"), fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m); and

(2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Registrant.

24. On December 19, 2005, Accredited issued a press release entitled "Accredited Sets 2006 EPS Guidance." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (NASDAQ:LEND) announced today its full year 2006 earnings per fully-diluted share (EPS) guidance at \$7.70 -- \$8.00. The 2006 forecast assumes:

- Growth in originations from an expanding platform;
- Interest rate spreads on originations below average 2005 spreads resulting in
 - Lower average gain on whole loan sales

- Reduced margin from the portfolio
- Similar mix of loan dispositions between securitizations and whole loan sales; and
- Continued focus on reducing the cost of origination.

Accredited Chairman and CEO James Konrath said, "Accredited has always focused on its fundamental business strategies -- profit-based disciplines, diversification, and leveraging our experienced management team -- that have served us well over the past 15 years. We believe that the critical issues facing the industry in the months ahead will be the ability to improve spreads and margins through appropriate pricing. Our mandate remains to be a leader in maximizing net revenue and reducing costs in order to deliver consistent profits."

Mr. Konrath added, "Achieving the earnings growth projected for 2006 will depend, in large part, on the pricing behavior in the non-prime mortgage origination market. We are encouraged that many of our competitors have been recently putting margin back into loan pricing. To the extent this trend of increasing interest rates to borrowers continues into 2006, we expect to be at the top of the EPS range. Conversely, pricing at, or slightly below, current levels will likely result in 2006 earnings at the lower end of the range." [Emphasis added.]

25. On February 14, 2006, Accredited issued a press release entitled "Accredited Reports Record Results for 2005; Loans On-Balance Sheet up 47%; Originations up 34%; Cost to Originate down 15%; Net Income up 19% in 2005." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (Nasdaq:LEND), a nationwide mortgage company specializing in non-prime residential mortgage loans, today announced record results for the quarter and year ended December 31, 2005.

Net income for the year ended December 31, 2005 was \$155.4 million, or \$7.07 per share on a fully-diluted basis, an increase of 18.9% over \$130.8 million for the year ended December 31, 2004. Total net revenues for the year increased 21.1% to \$568.6 million from \$469.6 million the prior year.

Net income for the quarter ended December 31, 2005 was \$43.3 million, or \$1.96 per share on a fully-diluted basis, an increase of 13.6% over net income of \$38.1 million for the comparable period in 2004. Total net revenues for the quarter increased by 11.5% to \$150.1 million from \$134.6 million for the comparable period in 2004.

Chairman and CEO James Konrath said, "Accredited met the challenge of a volatile 2005 for the non-prime mortgage industry by relying on the strength of our proven business model that features profitable origination and portfolio growth, minimizing

our net cost to originate, and leveraging our experienced management team. In addition, the record results reflect the strength and commitment of our business partners, and of course, our world-class employees across the United States and in Canada."

Mr. Konrath added, "We expect 2006 to present an equally challenging environment that we are confronting with the same determination, confidence and focus, which were successful in 2005. To meet that challenge and continue to excel, Accredited will strengthen the primary factors that differentiate it in the marketplace, particularly our commitment to managing for profit, portfolio quality, and diversified loan originations, financing and dispositions."

2005 Operational Highlights

- Net cost to originate was 1.63% for the year, including an all-time record low of 1.35% in the fourth quarter.
- Loans on-balance sheet reached a record balance of \$9.6 billion at December 31, 2005, an increase of \$3.1 billion, or 46.6%, from December 31, 2004.
- Portfolio income (interest income less interest expense and provision for losses) of \$237.3 million in 2005, compared to \$174.9 million in 2004, an increase of 35.7%. As a percentage of total net revenues (total revenue less interest expense and provision for losses), portfolio income increased from 37.2% in 2004 to 41.7% in 2005.
- Mortgage origination volume of \$16.6 billion in 2005, compared to \$12.4 billion in 2004, an increase of 33.5%. Origination volume for the fourth quarter equaled \$4.7 billion, which was the highest quarterly volume in the company's history.

* * *

The 21.1% increase in total net revenues from 2004 to 2005 resulted primarily from increases in portfolio income and an increase in whole loan sales. Net interest income after provision increased 35.7% from \$174.9 million in 2004 to \$237.3 million in 2005 primarily due to the larger loan portfolio, partially offset by a smaller net interest margin percentage. The increase in the size of the loan portfolio from 2004 resulted from four quarterly securitizations structured as financings and a higher balance of loans held for sale and securitization. The gain on sale of loans increased 10.4% from \$283.6 million in 2004 to \$313.1 million in 2005 primarily due to higher volume of whole loan sales for cash, offset in part by lower premiums. The company's average whole loan premiums, net of hedging, decreased from 3.71% in 2004 to 2.95% in 2005. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Total operating expenses increased 20.5% from \$249.9 million in 2004 to \$301.2 million in 2005 due primarily to the costs associated with larger loan originations. Salaries, wages and benefits expense

increased by 18.0% from \$160.8 million in 2004 to \$189.8 million in 2005 due primarily to the growth in the number of employees and increased commission and bonus costs related to higher loan originations, offset in part by greater efficiency. General, administrative, and other expenses increased by 25.1% from \$89.1 million in 2004 to \$111.4 million in 2005 due primarily to increases in loan originations, number of staff, and number of locations.

Loan Originations

The company originated \$16.6 billion of mortgage loans for the year ended December 31, 2005, compared to \$12.4 billion of mortgage loan originations in 2004, an increase of 33.5%.

Wholesale and retail originations for the year represented 90% and 10% of total loan production, respectively, generally consistent with prior periods.

The company's net cost to originate mortgage loans was 1.63% for the year. For Q4 2005, the company's net cost to originate was 1.35%, compared to 1.89% in Q4 2004 and 1.57% in Q3 2005. Management believes this measurement is beneficial to investors because it provides a measurement of efficiency of the origination process. Additional detail on the calculation can be found in the Financial Summary at the end of this release.

Loan Dispositions

During 2005, \$11.4 billion of mortgage loans were sold in whole loan sales for cash, and \$4.2 billion of mortgage loans went into securitizations structured as financings. At the end of the fourth quarter, approximately \$900 million of mortgage loans in the United States and Canada were held for additions to the long-term portfolio, and \$2.3 billion of mortgage loans were held for sale.

Portfolio Performance and Loan Servicing

The company's servicing portfolio, including \$90.2 million of liquidating off-balance sheet securitizations, totaled \$9.7 billion at December 31, 2005. The serviced portfolio increased 44.2% from \$6.7 billion at December 31, 2004. This was primarily due to the company's quarterly securitization program and an increase in the loans held for disposition. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) were 2.47% of the serviced portfolio at December 31, 2005, compared to 1.95% at September 30, 2005 and 1.74% at December 31, 2004. Delinquency levels remain well within management's expectations and continue to be substantially below published industry averages.

Liquidity

The company had approximately \$5.2 billion in warehouse credit capacity at December 31, 2005. At the end of December, the company had used \$2.8 billion of this capacity. The company had a

record \$356.4 million in available cash and additional liquidity at December 31, 2005.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an adjusted leverage ratio, which was 14.1 times at December 31, 2005. Additional detail concerning the company's leverage measures can be found in the Financial Summary at the end of this release.

* * *

Earnings Guidance for 2006

For the total year 2006, the company affirms its previous earnings guidance of \$7.70 - \$8.00 per share. Achieving the earnings growth projected for 2006 will depend, in large part, on the impact of the industry and competitive environment on rates and margins. Earnings per share are expected to be at the top of the range if the industry continues the fourth quarter trend of increasing the spread between the rates to borrowers and the cost of funds. Earnings per share are estimated at the lower end of the range if these spreads remain at year-end 2005 levels.

Earnings Guidance for First Quarter

For the first quarter of 2006, the company expects earnings to increase from prior year in proportion with its annual guidance. The first quarter guidance assumes:

- A seasonal decline in loan origination volume compared to the fourth quarter
- An increase in the cost to originate as a result of the lower volume
- Lower net premium received on whole loan sales compared to the fourth quarter of 2005

[Emphasis added.]

26. On March 16, 2006, Accredited filed its 2005 Annual Report with the SEC on Form 10-K. The Company's Form 10-K was signed by Defendants Konrath, Buchanan, and Lydon, and reaffirmed the Company's financial results previously announced on February 14, 2006. The Company's Form 10-K also contained Sarbanes-Oxley required certifications substantially similar to the certifications contained in ¶ 23, *supra*.

27. On May 2, 2006, Accredited issued a press release entitled "Accredited Reports Q1

2006 Results; Net Income up 15% in Q1 2006; Net Cost to Originate down 19%; Loans On-Balance Sheet up 30%; Originations up 11%." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (Nasdaq:LEND), a nationwide mortgage company specializing in non-prime residential mortgage loans, today announced results for the quarter ended March 31, 2006.

Net income for the quarter ended March 31, 2006 was \$35.8 million, or \$1.61 per share on a fully-diluted basis, an increase of 14.5% over net income of \$31.3 million for the comparable period in 2005. Total net revenues for the quarter increased by 15.2% to \$141.7 million from \$123.0 million for the comparable period in 2005.

Chairman and CEO James Konrath said, "Our company delivered another solid quarter of earnings and cost discipline, along with an increase in loan originations and portfolio growth. These results were accomplished during a quarter with the anticipated seasonally softer origination volume and a number of competitors lowering interest rates to borrowers while the cost of money was increasing. Continued healthy demand for non-prime loans was again evident by our growth in origination volume when measured against the same period in 2005, as well as the strong volume during the last month of the quarter."

Mr. Konrath added, "We are also pleased with the growth and performance of our portfolio in the first quarter. Accredited continues to achieve superior executions on its securitizations, including a first quarter transaction with some of the tightest spreads in our history, and portfolio performance results that continue to outpace both the industry and our forecasts. All of this underscores our continued confidence that our profit-based business model, diversification in all facets of our business, and best-in-class employees will drive profitability for the remainder of 2006 and beyond."

First Quarter Operational Highlights

- Net cost to originate of 1.60% for the quarter, an improvement of 36 basis points from the same period last year.
- Loans on-balance sheet reached \$9.5 billion at March 31, 2006, an increase of \$2.2 billion, or 30.0%, from March 31, 2005.
- Net interest income after provision (interest income less interest expense and provision for losses) of \$65.8 million, compared to \$57.7 million in Q1 2005, an increase of 14.0%. As a percentage of total net revenues, net interest income after provision was 46.4% in Q1 2006.

- Mortgage origination volume of \$3.6 billion in Q1 2006, compared to \$3.2 billion in Q1 2005, an increase of 11.1%.

* * *

The 15.2% increase in total net revenues from Q1 2005 to Q1 2006 resulted primarily from an increase in the portfolio and higher whole loan sales. Net interest income after provision increased 14.0% from \$57.7 million in Q1 2005 to \$65.8 million in Q1 2006, primarily due to the larger loan portfolio, partially offset by a lower net interest margin percentage. While the weighted average coupon increased during the quarter, it was more than offset by higher cost of funds. The increase in the size of the loan portfolio from Q1 2005 resulted primarily from four quarterly securitizations structured as financings. The gain on sale of loans increased 15.0% from \$61.4 million in Q1 2005 to \$70.6 million in Q1 2006 primarily due to higher volume of whole loan sales, offset in part by lower premiums. The company's average whole loan premium, net of hedging, decreased from 3.27% in Q1 2005 to 2.10% in Q1 2006. The premium for Q1 2006 includes discounts from three second-lien loan sales during the quarter that reduced the average whole loan premium percentage by 12 basis points. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Total operating expenses increased 15.6% from \$68.1 million in Q1 2005 to \$78.7 million in Q1 2006, due primarily to the costs associated with larger loan originations. Salaries, wages and benefits expense increased by 12.0% from \$42.4 million in Q1 2005 to \$47.5 million in Q1 2006 primarily because of the recognition of approximately \$1 million in stock option expense as a result of SFAS 123R and the increased staff and volume levels. General, administrative, and other expenses increased by 21.5% from \$25.6 million in Q1 2005 to \$31.1 million in Q1 2006 due primarily to increases in the number of loans originated and being serviced, and marketing expenses supporting increased production from the retail channel.

Loan Originations

The company originated \$3.6 billion of mortgage loans for the quarter ended March 31, 2006, compared to \$3.2 billion of mortgage loan originations in Q1 2005, an increase of 11.1%.

Wholesale and retail originations for the quarter represented 87% and 13% of total loan production, respectively, reflecting a higher growth rate in the retail channel during the quarter.

The company's net cost to originate mortgage loans was 1.60% for the quarter ended March 31, 2006 compared to 1.96% in Q1 2005. Management believes this measurement is beneficial to investors because it provides a measurement of the efficiency of the loan origination process. Additional detail on the calculation of net cost to originate can be found in the Financial Summary at the end of this release.

Loan Dispositions

During Q1 2006, \$3.0 billion of mortgage loans were sold in whole loan sales for cash, and \$1.0 billion of mortgage loans went into a securitization structured as a financing. At the end of the quarter, \$867.3 million of mortgage loans were held for additions to the long-term portfolio, and \$1.7 billion of mortgage loans were held for sale.

Portfolio Performance and Loan Servicing

The company's servicing portfolio, including \$81.8 million of liquidating off-balance sheet securitizations, totaled \$9.6 billion at March 31, 2006. The serviced portfolio increased 28.5% from \$7.5 billion at March 31, 2005. This was primarily due to the company's quarterly securitization program. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) were 2.85% of the serviced portfolio at March 31, 2006, compared to 2.47% at December 31, 2005 and 1.72% at March 31, 2005. Delinquency levels remain within management's expectations and continue to be substantially below published industry averages.

Liquidity

The company had approximately \$5.2 billion in warehouse credit capacity at March 31, 2006. At the end of March, the company had used \$2.3 billion of this capacity. The company had \$301.0 million in available cash and additional liquidity at March 31, 2006.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an adjusted leverage ratio, which was 12.9 times at March 31, 2006. Additional detail concerning the company's leverage measures can be found in the Financial Summary at the end of this release.

* * *

Earnings Guidance for 2006

For the total year 2006, the company reaffirms its previous earnings guidance of \$7.70 - \$8.00 per share. This forecast for the balance of the year, as well as the second quarter, assumes:

- Continued growth in origination volume
- Additional reductions in the cost to originate
- Improvement in the spread of interest rates to borrowers over the cost of funds from current market place levels
- An increase in net premium received in whole loan sales from current market levels

[Emphasis added.]

28. On May 10, 2006, Accredited filed its Quarterly Report with the SEC on Form 10-Q. The Company's Form 10-Q was signed by Defendants Konrath and Buchanan, and reaffirmed the Company's financial results previously announced on May 2, 2006. The Company's Form 10-Q also contained Sarbanes-Oxley required certifications substantially similar to the certifications contained in ¶ 23, *supra*.

29. On August 9, 2006, Accredited issued a press release entitled "Accredited Reports Q2 2006 Results; Net Income up 4% in Q2 2006, Net Cost to Originate down 22%, Loans On-Balance Sheet up 16% from 2005." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (NASDAQ:LEND), a mortgage company specializing in non-prime residential mortgage loans, today announced results for the quarter ended June 30, 2006.

Net income for the quarter ended June 30, 2006 was \$41.2 million, or \$1.84 per share on a fully-diluted basis, an increase of 4.2% over net income of \$39.6 million for the comparable period in 2005. Total net revenues for the quarter increased by 6.6% to \$153.2 million from \$143.7 million for the comparable period in 2005.

Chairman and CEO James Konrath said, "We are pleased with profit and cost results in the second quarter and the first half of 2006 that presented some of the most challenging market conditions in recent memory. Our unwavering commitment to originating profitable loans at the lowest cost continues to generate margins that act as a counterweight to continuing intense price competition, fluctuating secondary market appetites, and higher funding costs."

Mr. Konrath added, "During the second quarter, we were also very pleased to announce signing a definitive agreement to acquire Aames Investment Corporation, a 52-year old non-prime mortgage company. We anticipate that the combined company will nearly triple Accredited's retail presence, provide significant cost and operational synergies, and improve scale throughout the origination and servicing operations. Equally important is that the Aames transaction will bring a cadre of experienced non-prime mortgage professionals to join the 2,900 world-class employees at Accredited."

Second Quarter Operational Highlights

- Net cost to originate for the quarter was 1.34%, an improvement of 39 basis points from the same period last year and the lowest in the company's history that was previously achieved in the fourth quarter of 2005.

- Loans on-balance sheet reached \$9.5 billion at June 30, 2006, an increase of \$1.3 billion, or 15.6%, from June 30, 2005.
- Net interest income after provision (interest income less interest expense and provision for losses) of \$65.0 million, compared to \$54.9 million in Q2 2005, an increase of 18.4%. As a percentage of total net revenues, net interest income after provision was 42.4% in Q2 2006.
- Mortgage origination volume of \$4.08 billion in Q2 2006, compared to \$4.14 billion in Q2 2005, a decrease of 1.5%.
- The company signed a definitive agreement on May 24 to acquire Aames Investment Corporation (NYSE: AIC). On June 23, the company purchased the assets of the wholesale operation of Aames for a cash price of \$4 million. The integration of the wholesale platform, which added 65 employees at the end of the second quarter, began on June 26 and was completed on July 10 with an additional 94 employees joining Accredited's wholesale operation.

* * *

The 6.6% increase in total net revenues from Q2 2005 to Q2 2006 resulted primarily from an increase in the portfolio and higher whole loan sales, which were partially offset by a lower gain on sale of loans. Net interest income after provision increased 18.4% from \$54.9 million in Q2 2005 to \$65.0 million in Q2 2006, primarily due to the larger loan portfolio, partially offset by a lower net interest margin percentage. While the weighted average coupon increased during the quarter, it was more than offset by higher cost of funds. The increase in the size of the loan portfolio from Q2 2005 resulted primarily from four large quarterly securitizations structured as financings. Provision for losses decreased 27.8% from Q2 2005 to Q2 2006 due primarily to lower growth in loans held for investment, which was \$46.3 million this quarter, compared to \$611.9 million for the same period in 2005. However, the reserve balance on loans held for investment increased in dollars and as a percentage of the principal balance outstanding from last year and the last quarter. The reserve rate is now 1.6%, compared to 1.4% at June 30, 2005 and 1.5% at March 31, 2006.

The gain on sale of loans decreased 4.6% from \$84.5 million in Q2 2005 to \$80.7 million in Q2 2006 primarily due to lower premiums, offset in part by higher volume of whole loan sales. The company's average whole loan premiums, net of hedging, decreased from 3.12% in Q2 2005 to 2.30% in Q2 2006. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Total operating expenses increased 8.0% from \$75.1 million in Q2 2005 to \$81.1 million in Q2 2006 primarily to support the increase in the serviced loan portfolio. Salaries, wages and benefits expense decreased by 0.8% from \$49.7 million in Q2 2005 to \$49.3 million in Q2 2006 due to the decrease in incentive compensation associated with the lower value per loan originated. General, administrative, and other expenses increased by 25.4% from \$25.4 million in Q2 2005 to

Loan Originations

Wholesale and retail originations for the quarter represented 87% and 13% of total loan production, respectively, reflecting a higher growth rate in the retail channel.

Loan Dispositions

Portfolio Performance and Loan Servicing

The company's servicing portfolio, including \$73.5 million of liquidating off-balance sheet securitizations, totaled \$9.5 billion at June 30, 2006. The serviced portfolio increased 14.9% from \$8.3 billion at June 30, 2005. This was primarily due to the company's quarterly securitization program. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) were 3.76% of the serviced portfolio at June 30, 2006, compared to 2.47% at December 31, 2005 and 1.79% at June 30, 2005. In spite of the increase, delinquency levels remain within management's expectations and continue to be substantially below published industry averages.

Liquidity

The company had approximately \$5.2 billion in warehouse credit capacity at June 30, 2006. At the end of June, the company had used \$1.6 billion of the available capacity. The company had \$316.4 million in available cash and additional liquidity at June 30, 2006.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an adjusted leverage ratio, which was 12.2 times at June 30, 2006. Additional detail concerning the company's leverage measures can be found in the Financial Summary at the end of this release

* * *

Earnings Guidance for 2006

The company revises its full year 2006 earnings per fully-dilutive share guidance to a range of \$4.50 to \$5.00. As reported in May 2006, the company anticipates the dilutive impact of the Aames merger on earnings per share in 2006 to be in the range of \$1.00 to \$1.35, depending on the closing date. The most significant items in further revising the 2006 forecast include:

- Lower than anticipated origination volume
- Net gain on whole loan sales below previous expectations

The forecast for the balance of the year assumes:

- Completion of the Aames acquisition in early October
- Implementation of more competitive pricing in the company's wholesale platform resulting in:
 - Lower net gains on whole loan sales
 - Year-over-year volume growth
- Steady net cost to originate

[Emphasis added.]

30. Also on August 9, 2006, Accredited filed its Quarterly Report with the SEC on Form 10-Q. The Company's Form 10-Q was signed by Defendants Konrath and Marvin, and reaffirmed the Company's financial results announced on the same day. The Company's Form 10-Q also contained Sarbanes-Oxley required certifications substantially similar to the certifications contained in ¶ 23, *supra*.

31. On October 19, 2006 Accredited issued a press release entitled "Accredited Updates 2006 Outlook; Sets Q3 Call Date." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (NASDAQ:LEND) ("Accredited") announced today it anticipates fully-diluted earnings per share for the year will not reach the lower end of the company's previous 2006 guidance of \$4.50.

Increasing turbulence in the non-prime mortgage market has impacted the company's ability to achieve its previous earnings guidance. The most significant factors underlying this turbulence include:

- Origination volume and loan submissions have not increased as much as the company anticipated and continue to be adversely affected by a combination of pricing competition and product contraction that has been prevalent in the market throughout 2006.
- Whole loan premiums and securitization returns are under more pressure than previously anticipated, caused a decrease in whole loan investor appetite for certain products, as well as changes in credit standards and equity requirements promulgated by the various rating agencies.
- Delinquency from production periods in 2005 and 2006 has risen above previous expectations, which requires the company to further bolster its reserves to prudently value the loan portfolio and potential exposure.

Accredited's Chairman and CEO, James Konrath commented, "We believe the ferocity of pricing competition is due, in part, to the current wave of merger and acquisition activity as several non-prime mortgage originators attempt to maintain production levels to become or remain attractive to potential investors."

Mr. Konrath added, "We intend to capitalize on the fundamental strengths of the company -- a deeply experienced management team, diversification in all operational areas, and a profit culture driven to all levels of the company -- as we navigate through the current turbulent cycle in the non-prime mortgage industry."

[Emphasis added.]

32. On November 6, 2006, Accredited issued a press release entitled "Accredited Reports Q3 Results." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (NASDAQ:LEND), a mortgage company specializing in non-prime residential mortgage

loans, today announced results for the quarter ended September 30, 2006.

Net income for the quarter ended September 30, 2006 was \$18.4 million, or \$0.83 per share on a fully-diluted basis, down from \$41.3 million for the comparable period in 2005. Total net revenue for the quarter was \$114.3 million, down from \$151.8 million for the comparable period in 2005.

Commenting on the third quarter results, Accredited's Chairman and CEO James Konrath said, "As previously reported, our recent performance has been negatively impacted by fierce pricing competition, ongoing product contraction, anticipated higher delinquencies and losses, and activities associated with the acquisition of Aames Investment Corporation that was effective on October 1. Despite these headwinds, Accredited originated loans at a profit, maintained our low cost structure, and closed the acquisition of Aames on schedule.

"While we are not satisfied with the third quarter profits and portfolio trends, we remain committed to, and confident in, our prospect for long-term growth and profitability. In this context, the Aames acquisition will help to immediately expand our most profitable origination channel, the retail platform."

Operational Highlights

- The Company closed the acquisition of Aames Investment Corporation effective October 1, 2006 for a total purchase price of \$235 million, which included \$77.6 million in cash and issuance of approximately 4.4 million shares of its common stock.
- Net cost to originate for the quarter was 1.53%, an improvement of 4 basis points from the same period last year.
- Loans on-balance sheet reached \$9.3 billion at September 30, 2006, an increase of \$254 million, or 2.8%, from September 30, 2005.
- Net interest income after provision was \$59.5 million, compared to \$64.1 million in Q3 2005.
- Mortgage origination volume was \$4.2 billion in Q3 2006, compared to \$4.5 billion in Q3 2005.
- On September 14, 2006, the Board of Directors authorized the company to repurchase up to 5 million shares of the company's stock from time-to-time through October 1, 2007. Through November 3, 2006, the company has purchased 750,000 shares of the company common stock under the repurchase program.

* * *

The decrease in total net revenues from Q3 2005 to Q3 2006 is primarily a result of a decrease in gain on sale from \$81.9 million in Q3 2005 to \$47.3 million in Q3 2006. The decrease in the gain

on sale was largely due to lower premiums on loans sold and higher provisions for repurchases and premium recapture. In addition, the provision for market valuation on loans held for sale increased due to higher delinquency. The company's average whole loan premiums, net of hedging, decreased from 3.08% in Q3 2005 to 1.86% in Q3 2006. Additional detail on this calculation can be found in the Financial Summary at the end of this release.

Net interest income after provision declined to \$59.5 million in Q3 2006 from \$64.1 million in Q3 2005 due primarily to lower spreads associated with pricing competition and the flattening yield curve. Provision for losses equaled \$9.7 million in Q3 2006, compared to \$15.4 million in Q3 2005. The decrease in the provision for losses reflects a decrease in the portfolio over the comparable period. The reserve balance on loans held for investment increased as a percentage of the principal balance outstanding to 1.7%, compared to 1.5% at December 31, 2005 and 1.4% at September 30, 2005.

Total operating expenses increased 12.3% from \$78.5 million in Q3 2005 to \$88.1 million in Q3 2006. Salaries, wages and benefits expense increased by 12.8% from \$48.4 million in Q3 2005 to \$54.6 million in Q3 2006 primarily due to growth in staff and related salaries, partially offset by lower bonuses and commissions. General, administrative, and other expenses increased by 11.6% from \$30.1 million in Q3 2005 to \$33.6 million in Q3 2006 primarily because of the additional investment in technology and infrastructure.

Loan Originations

The company originated \$4.2 billion of mortgage loans for the quarter ended Q3 2006, compared to \$4.5 billion of mortgage loan originations in Q3 2005, a decrease of 5.9%. For the same time period, volume from the retail channel increased from \$456.9 million in Q3 2005 to \$501.5 million in Q3 2006, an increase of 9.8%. This volume did not include any retail volume from the Aames acquisition, which occurred on October 1, 2006.

Wholesale and retail originations for the quarter represented 88% and 12% of total loan production, respectively, reflecting a higher growth rate in the retail channel.

The company's net cost to originate mortgage loans was 1.53% for the quarter ended September 30, 2006 compared to 1.57% in Q3 2005. Management believes this measurement is beneficial to investors because it provides a measurement of the efficiency of the loan origination process. Additional detail on the calculation of net cost to originate can be found in the Financial Summary at the end of this release.

Loan Dispositions

During Q3 2006, \$3.7 billion of mortgage loans were sold in whole loan sales for cash, and the company completed the funding of the \$1.4 billion securitization initiated in Q2 2006 by delivering \$350

million in mortgage loans to finalize the securitization. At the end of the quarter, \$2.0 billion of mortgage loans were held for disposition.

Portfolio Performance and Loan Servicing

The company's servicing portfolio totaled \$9.4 billion at September 30, 2006. The serviced portfolio increased 2.4% from \$9.2 billion at September 30, 2005. This was primarily due to the company's securitization program. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) comprised 5.44% of the serviced portfolio at September 30, 2006, compared to 2.47% at December 31, 2005 and 1.95% at September 30, 2005.

Liquidity

The company had approximately \$6.7 billion in credit facilities at September 30, 2006. At the end of September, the company had used \$2.0 billion of the available capacity. The company had \$351 million in available cash and additional liquidity at September 30, 2006.

Effective November 6, 2006, the company added a \$100 million working capital credit facility. Advances on the committed facility are secured by the company's ownership interest in the residual cash flows from the securitized loans held for investment.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an adjusted leverage ratio, which was 12.3 times at September 30, 2006. Additional detail concerning the company's leverage measures can be found in the Financial Summary at the end of this release. [Emphasis added.]

33. On November 9, 2006, Accredited filed its Quarterly Report with the SEC on Form 10-Q. The Company's Form 10-Q was signed by Defendants Konrath and Marvin, and reaffirmed the Company's financial results previously announced on November 6, 2006. The Company's Form 10-Q also contained Sarbanes-Oxley required certifications substantially similar to the certifications contained in ¶ 23, *supra*.

34. On February 14, 2007, Accredited issued a press release entitled "Accredited Reports 2006 Results." Therein, the Company, in relevant part, stated:

Accredited Home Lenders Holding Co. (NASDAQ:LEND), a mortgage company specializing in non-prime residential mortgage

Net income for the year ended December 31, 2006 was \$57.7 million, or \$2.48 per share on a fully-diluted basis, down from \$155.4 million and \$7.07 per share for the comparable period in 2005. Net loss for the quarter ended December 31, 2006 was (\$37.8) million, or (\$1.49) per share on a fully-diluted basis, down from net income of \$43.3 million for the comparable period in 2005. Reserve balances at December 31 increased \$42 million from the end of Q3 2006, reflecting increasing delinquency trends and repurchase activity.

Mr. Konrath added, "While the current operating environment remains challenging, our seasoned management team, talented employees and bottom-line business model give us confidence that we will navigate successfully through the current conditions."

- Closed the Aames merger and completed much of the integration of Aames and Accredited
 - Retail business: Trained all branch and operational personnel on Accredited products, underwriting guidelines and processes, technology systems and incentive plans
 - Servicing: Sold the Aames servicing platform
 - Loans held for Investment: Sold four of the six Aames securitization residual interests, reducing the Aames portfolio from \$3.0 billion acquired to \$1.2 billion
 - Administrative staff: Consolidated all corporate departments into Accredited's San Diego headquarters
 - The purchase price in excess of estimated fair value resulted in goodwill of \$63 million

- Continued credit quality initiatives
 - Refocused underwriting and processing staffs
 - Tightened requirements for credit score, loan-to-value, income documentation and product availability
- **Continued to increase reserve balances**
 - **Provision expense for the five reserve categories totaled \$76 million in Q4 2006**
 - Actual losses in these five categories were \$34 million in the fourth quarter
 - **Total reserves increased \$42 million from September 30 to December 31**
- **Maintained strong liquidity of \$345 million at December 31, 2006**
- Issued \$56 million of trust preferred securities on January 11, 2007, further strengthening our liquidity position

* * *

Loan Originations

The company originated \$3.9 billion of mortgage loans for the quarter ended Q4 2006, compared to \$4.7 billion of mortgage loan originations in Q4 2005, a decrease of 18%. Wholesale and retail originations for the quarter represented 77% and 23% of total loan production, respectively, reflecting the impact of the merger on the retail channel.

Volume from the wholesale channel decreased from \$4.2 billion in Q4 2005 to \$3.0 billion in Q4 2006, a decline of 29.6%. The primary reasons for the lower volume in the wholesale channel were continuation of credit quality initiatives, and pricing and product competition in the wholesale market.

For the same time period, volume from the retail channel increased from \$495.0 million in Q4 2005 to \$897.3 million in Q4 2006, an increase of 81.3%. The former Aames retail branches originated \$493.1 million in loans during Q4 2006. Volume was negatively impacted by lost sales time from training and system conversions, as well as an adjusted product menu and tightened underwriting standards.

The company's net cost to originate mortgage loans was 1.85% for Q4 2006 compared to 1.35% in Q4 2005. The increase is primarily the result of the decline in volume and the effects of the Aames integration. Additional detail on the calculation of net cost to originate can be found in the Regulation G disclosure tables at the end of this release.

Loan Dispositions

During Q4 2006, \$3.3 billion of mortgage loans, including \$286 million of loans acquired from Aames, were sold in whole loan sales for cash. In addition, the company sold four of the six residuals acquired from Aames representing loans of \$1.7 billion. At the end of the quarter, \$2.1 billion of mortgage loans were held for sale and \$883 million were held for securitization. The company closed a \$760 million asset-backed, on-balance sheet securitization on January 30, 2007.

Portfolio Performance and Loan Servicing

The company's servicing portfolio totaled \$11.0 billion at December 31, 2006. The serviced portfolio increased 13.7% from \$9.7 billion at December 31, 2005 primarily because of the additional two Aames securitizations held at year end. Delinquent loans (30 or more days past due, including foreclosures and real estate owned) comprised 7.18% (excluding Aames loans remaining in the portfolio) of the serviced portfolio at December 31, 2006, compared to 5.45% at September 30, 2006. The primary reasons for the increase in 30+ day delinquencies were the aging of the portfolio, higher delinquencies from more recent vintages, and additional delinquency from repurchased loans. Additional details on delinquency trends can be found in the tables at the end of this release.

Liquidity

The company had approximately \$7.6 billion in credit and commercial paper facilities at December 31, 2006. At the end of December, the company had used \$2.8 billion of the available capacity. The company had \$345 million in available cash and liquidity at December 31, 2006, compared to \$356 million at December 31, 2005. Additionally, on January 11, 2007, the company completed a \$56 million private placement of trust preferred securities through its subsidiary, Accredited Preferred Securities Trust I. The trust preferred securities bear interest at a fixed rate of 9.01% until January 30, 2012, whereupon the rate floats at three-month LIBOR plus 3.95% thereafter until their maturity in January 2037, unless earlier redeemed. The trust preferred securities can be redeemed in whole or in part by the company beginning January 30, 2012 without penalty. The company believes that the issuance of the trust preferred further strengthens its liquidity position.

Adjusted Leverage

In managing its capital structure, the company adds its REIT subsidiary preferred stock, which is reflected as a minority interest on the consolidated balance sheet, to stockholders' equity to determine an

1 adjusted leverage ratio, which was 12.7 times at December 31, 2006.
 2 [Emphasis added.]

3 35. The statements contained in ¶¶ 21 – 34 were materially false and misleading
 4 when made because Defendants failed to disclose or indicate the following: (1) that the Company
 5 was improperly accounting for loan losses as conditions in the sub-prime industry deteriorated;
 6 (2) that as such, the Company's financial statements were materially misstated; (3) that the
 7 Company's underwriting guidelines were not adequately restrictive for borrowers in the sub-
 8 prime loan market; (4) that the Company would be forced to further tighten its underwriting
 9 guidelines which would have a material impact on its future loan productions; (5) that the
 10 Company was operating without effective risk management policies and procedures in place; (6)
 11 that the Company lacked adequate internal and financial controls; and (7) that, as a result of the
 12 above, the Company's statements about its financial well-being and future business prospects
 13 were lacking in any reasonable basis when made.

14 **The Truth Begins to Emerge**

15 36. On March 12, 2007, after the market had closed for the day, Accredited issued a
 16 press release entitled "Accredited Pursuing Strategic Options." Therein, the Company, in relevant
 17 part, revealed:

18
 19 Accredited Home Lenders Holding Co. (NASDAQ:LEND)
 20 ("Accredited" or "Company") announced today that it is currently
 21 exploring various strategic options, including raising additional
 22 capital to enhance liquidity and provide the Company with the
 23 flexibility to retain or sell originated loans based on an
 24 assessment of the best overall return. Accredited's available cash
 25 resources have been affected primarily by margin calls under its
 warehouse and repurchase facilities since January 1, 2007, all of
 which have been met to date, as well as ongoing loan repurchases.
 The Company reported that it has paid approximately \$190
 million in margin calls on its facilities since January 1, 2007.
 Approximately two-thirds of those margin calls have been
 received and paid since February 15, 2007.

26 In addition, Accredited is seeking waivers and extensions of
 27 waivers of certain financial and operating covenants under its
 warehouse and repurchase facilities, including waivers relating to
 28 required levels of net income. The Company has been operating
 under various waivers under these facilities since December 31,
 2006. There can be no assurance that the Company will be

1 successful in receiving any of the required waivers. [Emphasis
2 added.]

3 37. On the release of this news, shares of the Company's stock declined \$7.43 per
4 share, or 65 percent, to close on March 13, 2007 at \$3.97 per share, on unusually heavy trading
5 volume.

6 38. The market's reaction to the Company's release of this unexpected and shocking
7 revelation may best be summed up by the views stated by Carl Drake, CFA, of SunTrust Robinson
8 Humphrey. In his research report released immediately following the Company's shocking news,
9 Mr. Drake, in relevant part, stated:

10 This morning, LEND announced that it is in a severe liquidity
11 crises due to margin calls and repurchase obligations. It is
12 exploring strategic options (including raising capital or a sale) and is
13 seeking extensions of waivers with its warehouse lenders. The
14 company's cash has been negatively impacted by margin calls on
15 its warehouse/repurchase facilities coupled with continued high
16 repurchases of whole loan sales totaling \$190 million since 1/1/07.
17 Given its unrestricted cash of about \$229 MM at year-end ... and
18 defaults with its lending sources, this raises significant concerns
19 about LEND's ability to fund originations and operate as a going
20 concern. With the stock trading around \$4, it is difficult to
21 determine if LEND can survive or sell itself in time.

22 Margin calls of about \$190 MM have been received since 1/1/07,
23 with the majority coming after 2/15/07. Having satisfied the
24 margin calls, the company has minimal unrestricted cash to
25 withstand further margin calls and increases the chance that
26 LEND may file bankruptcy, sell all or a portion of its assets or
27 face liquidation.

28 * * *

29 It is uncertain if LEND can find a buyer for its distressed business
30 in time. However, should it go into bankruptcy (a serious
31 possibility), LEND would likely be worthless. Therefore, we
32 continue to remain on the sidelines with our Neutral rating, but we
33 increased our risk rank to Speculative. [Emphasis added.]

34 PLAINTIFF'S CLASS ACTION ALLEGATIONS

35 39. Plaintiff brings this action as a class action pursuant to Federal Rule of Civil

1 Procedure 23(a) and (b)(3) on behalf of a Class, consisting of all those who purchased the common
2 stock of Accredited between November 1, 2005 and March 12, 2007, inclusive (the "Class Period")
3 and who were damaged thereby. Excluded from the Class are Defendants, the officers and directors
4 of the Company, at all relevant times, members of their immediate families and their legal
5 representatives, heirs, successors or assigns and any entity in which Defendants have or had a
6 controlling interest.

7
8 40. The members of the Class are so numerous that joinder of all members is
9 impracticable. Throughout the Class Period, Accredited's common stock was actively traded on the
10 NASDAQ. While the exact number of Class members is unknown to Plaintiff at this time and can
11 only be ascertained through appropriate discovery, Plaintiff believes that there are hundreds or
12 thousands of members in the proposed Class. Record owners and other members of the Class may
13 be identified from records maintained by Accredited or its transfer agent and may be notified of the
14 pendency of this action by mail, using the form of notice similar to that customarily used in
15 securities class actions.

16
17 41. Plaintiff's claims are typical of the claims of the members of the Class as all members
18 of the Class are similarly affected by Defendants' wrongful conduct in violation of federal law that is
19 complained of herein.

20
21 42. Plaintiff will fairly and adequately protect the interests of the members of the Class
22 and has retained counsel competent and experienced in class and securities litigation.

23 43. Common questions of law and fact exist as to all members of the Class and
24 predominate over any questions solely affecting individual members of the Class. Among the
25 questions of law and fact common to the Class are:

26 (a) whether the federal securities laws were violated by Defendants' acts as
27 alleged herein;

28 (b) whether statements made by Defendants to the investing public during the

1 Class Period misrepresented material facts about the business, operations and management of
 2 Accredited; and

3 (c) to what extent the members of the Class have sustained damages and the
 4 proper measure of damages.

5 44. A class action is superior to all other available methods for the fair and efficient
 6 adjudication of this controversy since joinder of all members is impracticable. Furthermore, as the
 7 damages suffered by individual Class members may be relatively small, the expense and burden of
 8 individual litigation make it impossible for members of the Class to individually redress the wrongs
 9 done to them. There will be no difficulty in the management of this action as a class action.
 10

11 UNDISCLOSED ADVERSE FACTS

12 45. The market for Accredited's common stock was open, well-developed and
 13 efficient at all relevant times. As a result of these materially false and misleading statements and
 14 failures to disclose, Accredited's common stock traded at artificially inflated prices during the
 15 Class Period. Plaintiff and other members of the Class purchased or otherwise acquired
 16 Accredited's common stock relying upon the integrity of the market price of Accredited's
 17 common stock and market information relating to Accredited, and have been damaged thereby.
 18

19 46. During the Class Period, Defendants materially misled the investing public, thereby
 20 inflating the price of Accredited's common stock, by publicly issuing false and misleading
 21 statements and omitting to disclose material facts necessary to make Defendants' statements, as set
 22 forth herein, not false and misleading. Said statements and omissions were materially false and
 23 misleading in that they failed to disclose material adverse information and misrepresented the truth
 24 about the Company, its business and operations, as alleged herein.
 25

26 47. At all relevant times, the material misrepresentations and omissions particularized in
 27 this Complaint directly, or proximately caused, or were a substantial contributing cause of, the
 28 damages sustained by Plaintiff and other members of the Class. As described herein, during the

1 Class Period, Defendants made or caused to be made a series of materially false or misleading
 2 statements about Accredited's financial well-being, business relationships, and prospects. These
 3 material misstatements and omissions had the cause and effect of creating in the market an
 4 unrealistically positive assessment of Accredited and its financial well-being, business relationships,
 5 and prospects, thus causing the Company's common stock to be overvalued and artificially inflated
 6 at all relevant times. Defendants' materially false and misleading statements during the Class Period
 7 resulted in Plaintiff and other members of the Class purchasing the Company's common stock at
 8 artificially inflated prices, thus causing the damages complained of herein.

10 LOSS CAUSATION

11 48. Defendants' wrongful conduct, as alleged herein, directly and proximately caused the
 12 economic loss suffered by Plaintiff and the Class.

13 49. During the Class Period, Plaintiff and the Class purchased common stock of
 14 Accredited at artificially inflated prices and were damaged thereby. The price of Accredited's
 15 common stock significantly declined when the misrepresentations made to the market, and/or the
 16 information alleged herein to have been concealed from the market, and/or the effects thereof, were
 17 revealed, causing investors' losses.

19 SCIENTER ALLEGATIONS

20 50. As alleged herein, Defendants acted with scienter in that Defendants knew that the
 21 public documents and statements issued or disseminated in the name of the Company were
 22 materially false and misleading; knew that such statements or documents would be issued or
 23 disseminated to the investing public; and knowingly and substantially participated or acquiesced in
 24 the issuance or dissemination of such statements or documents as primary violations of the federal
 25 securities laws. As set forth elsewhere herein in detail, Defendants, by virtue of their receipt of
 26 information reflecting the true facts regarding Accredited their control over, and/or receipt and/or
 27 modification of Accredited's allegedly materially misleading misstatements and/or their associations
 28

1 with the Company which made them privy to confidential proprietary information concerning
2 Accredited, participated in the fraudulent scheme alleged herein.

3 51. Also, during the Class Period, and with the Company's stock trading at artificially
4 inflated prices, Accredited was able to complete a merger with Aames Investment Corporation
5 ("Aames"). To consummate the merger, Accredited exchanged cash and fractional shares of the
6 Company's artificially inflated common stock to acquire total control of Aames' common stock, and
7 thereafter Aames became a wholly owned subsidiary of the Company.
8

9 52. Additionally, during the Class Period, and with the Company's stock trading at
10 artificially inflated prices, Company insiders sold shares of Accredited stock for gross proceeds of
11 \$19,094,491. For example, during the Class Period, and with the Company's stock trading at
12 artificially inflated prices, Defendant Konrath sold shares of Accredited stock for gross proceeds of
13 \$17,825,856, Defendant Crawford sold shares of Accredited stock for gross proceeds of \$536,285,
14 and Defendant Buchanan sold shares of Accredited stock for gross proceeds of \$460,000.
15 Additionally, during the Class Period, and with the Company's stock trading at artificially inflated
16 prices, Defendant Hertzfel sold shares of Accredited stock for gross proceeds of \$256,250, and
17 Defendant Erickson sold shares of Accredited stock for gross proceeds of \$16,100.
18

19 **Applicability of Presumption of Reliance:**
20 **Fraud On The Market Doctrine**

21 53. At all relevant times, the market for Accredited's common stock was an efficient
22 market for the following reasons, among others:

23 (a) Accredited's stock met the requirements for listing, and was listed and
24 actively traded on the NASDAQ, a highly efficient and automated market;

25 (b) As a regulated issuer, Accredited filed periodic public reports with the SEC
26 and NASDAQ;
27

28 (c) Accredited regularly communicated with public investors via established

1 market communication mechanisms, including through regular disseminations of press releases on
 2 the national circuits of major newswire services and through other wide-ranging public disclosures,
 3 such as communications with the financial press and other similar reporting services; and

4 (d) Accredited was followed by several securities analysts employed by major
 5 brokerage firms who wrote reports which were distributed to the sales force and certain customers of
 6 their respective brokerage firms. Each of these reports was publicly available and entered the public
 7 marketplace.
 8

9 54. As a result of the foregoing, the market for Accredited's common stock promptly
 10 digested current information regarding Accredited from all publicly-available sources and reflected
 11 such information in Accredited's stock price. Under these circumstances, all purchasers of
 12 Accredited common stock during the Class Period suffered similar injury through their purchase of
 13 Accredited common stock at artificially inflated prices and a presumption of reliance applies.
 14

15 NO SAFE HARBOR

16 55. The statutory safe harbor provided for forward-looking statements under certain
 17 circumstances does not apply to any of the allegedly false statements pleaded in this Complaint.
 18 Many of the specific statements pleaded herein were not identified as "forward-looking statements"
 19 when made. To the extent there were any forward-looking statements, there were no meaningful
 20 cautionary statements identifying important factors that could cause actual results to differ materially
 21 from those in the purportedly forward-looking statements. Alternatively, to the extent that the
 22 statutory safe harbor does apply to any forward-looking statements pleaded herein, Defendants are
 23 liable for those false forward-looking statements because at the time each of those forward-looking
 24 statements was made, the particular speaker knew that the particular forward-looking statement was
 25 false, and/or the forward-looking statement was authorized and/or approved by an executive officer
 26 of Accredited who knew that those statements were false when made.
 27
 28

FIRST CLAIM

**Violation of Section 10(b) of
The Exchange Act and Rule 10b-5
Promulgated Thereunder Against All Defendants**

56. Plaintiff repeats and realleges each and every allegation contained above as if fully set forth herein.

57. During the Class Period, Defendants carried out a plan, scheme and course of conduct which was intended to and, throughout the Class Period, did: (i) deceive the investing public, including Plaintiff and other Class members, as alleged herein; and (ii) cause Plaintiff and other members of the Class to purchase Accredited common stock at artificially inflated prices. In furtherance of this unlawful scheme, plan and course of conduct, Defendants, and each of them, took the actions set forth herein.

58. Defendants (a) employed devices, schemes, and artifices to defraud; (b) made untrue statements of material fact and/or omitted to state material facts necessary to make the statements not misleading; and (c) engaged in acts, practices, and a course of business which operated as a fraud and deceit upon the purchasers of the Company's common stock in an effort to maintain artificially high market prices for Accredited's common stock in violation of Section 10(b) of the Exchange Act and Rule 10b-5. All Defendants are sued either as primary participants in the wrongful and illegal conduct charged herein or as controlling persons as alleged below.

59. Defendants, individually and in concert, directly and indirectly, by the use, means or instrumentalities of interstate commerce and/or of the mails, engaged and participated in a continuous course of conduct to conceal adverse material information about the business, operations and future prospects of Accredited as specified herein.

60. These Defendants employed devices, schemes and artifices to defraud, while in possession of material adverse non-public information and engaged in acts, practices, and a course of conduct as alleged herein in an effort to assure investors of Accredited's value and performance and

1 continued substantial growth, which included the making of, or the participation in the making of,
 2 untrue statements of material facts and omitting to state material facts necessary in order to make the
 3 statements made about Accredited and its business operations and future prospects in light of the
 4 circumstances under which they were made, not misleading, as set forth more particularly herein,
 5 and engaged in transactions, practices and a course of business which operated as a fraud and deceit
 6 upon the purchasers of Accredited common stock during the Class Period.
 7

8 61. Each of the Individual Defendants' primary liability, and controlling person liability,
 9 arises from the following facts: (i) the Individual Defendants were high-level executives and/or
 10 directors at the Company during the Class Period and members of the Company's management team
 11 or had control thereof; (ii) each of these Defendants, by virtue of his responsibilities and activities as
 12 a senior officer and/or director of the Company was privy to and participated in the creation,
 13 development and reporting of the Company's internal budgets, plans, projections and/or reports; (iii)
 14 each of these Defendants enjoyed significant personal contact and familiarity with the other
 15 Defendants and was advised of and had access to other members of the Company's management
 16 team, internal reports and other data and information about the Company's finances, operations, and
 17 sales at all relevant times; and (iv) each of these Defendants was aware of the Company's
 18 dissemination of information to the investing public which they knew or recklessly disregarded was
 19 materially false and misleading.
 20
 21

22 62. The Defendants had actual knowledge of the misrepresentations and omissions of
 23 material facts set forth herein, or acted with reckless disregard for the truth in that they failed to
 24 ascertain and to disclose such facts, even though such facts were available to them. Such
 25 Defendants' material misrepresentations and/or omissions were done knowingly or recklessly and
 26 for the purpose and effect of concealing Accredited's operating condition and future business
 27 prospects from the investing public and supporting the artificially inflated price of its common stock.
 28 As demonstrated by Defendants' overstatements and misstatements of the Company's business,

64. At the time of said misrepresentations and omissions, Plaintiff and other members of the Class were ignorant of their falsity, and believed them to be true. Had Plaintiff and the other members of the Class and the marketplace known the truth regarding the problems that Accredited was experiencing, which were not disclosed by Defendants, Plaintiff and other members of the Class would not have purchased or otherwise acquired their Accredited common stock, or, if they had acquired such common stock during the Class Period, they would not have done so at the artificially inflated prices which they paid.

66. As a direct and proximate result of Defendants' wrongful conduct, Plaintiff and the other members of the Class suffered damages in connection with their respective purchases and sales of the Company's common stock during the Class Period.

SECOND CLAIM

**Violation of Section 20(a) of
The Exchange Act Against the Individual Defendants**

67. Plaintiff repeats and realleges each and every allegation contained above as if fully set forth herein.

68. The Individual Defendants acted as controlling persons of Accredited within the meaning of Section 20(a) of the Exchange Act as alleged herein. By virtue of their high-level positions, and their ownership and contractual rights, participation in and/or awareness of the Company's operations and/or intimate knowledge of the false financial statements filed by the Company with the SEC and disseminated to the investing public, the Individual Defendants had the power to influence and control and did influence and control, directly or indirectly, the decision-making of the Company, including the content and dissemination of the various statements which Plaintiff contends are false and misleading. The Individual Defendants were provided with or had unlimited access to copies of the Company's reports, press releases, public filings and other statements alleged by Plaintiff to be misleading prior to and/or shortly after these statements were issued and had the ability to prevent the issuance of the statements or cause the statements to be corrected.

69. In particular, each of these Defendants had direct and supervisory involvement in the day-to-day operations of the Company and, therefore, is presumed to have had the power to control or influence the particular transactions giving rise to the securities violations as alleged herein, and exercised the same.

70. As set forth above, Accredited and the Individual Defendants each violated Section 10(b) and Rule 10b-5 by their acts and omissions as alleged in this Complaint. By virtue of their positions as controlling persons, the Individual Defendants are liable pursuant to Section 20(a) of the Exchange Act. As a direct and proximate result of Defendants' wrongful conduct, Plaintiff and other

1 members of the Class suffered damages in connection with their purchases of the Company's
2 common stock during the Class Period.

3 **WHEREFORE**, Plaintiff prays for relief and judgment, as follows:

4 (a) Determining that this action is a proper class action under Rule 23 of the
5 Federal Rules of Civil Procedure;

6 (b) Awarding compensatory damages in favor of Plaintiff and the other Class
7 members against all Defendants, jointly and severally, for all damages sustained as a result of
8 Defendants' wrongdoing, in an amount to be proven at trial, including interest thereon;

9 (c) Awarding Plaintiff and the Class their reasonable costs and expenses incurred
10 in this action, including counsel fees and expert fees; and

11 (d) Such other and further relief as the Court may deem just and proper.

12 **JURY TRIAL DEMANDED**

13 Plaintiff hereby demands a trial by jury.

Attorneys for Plaintiff Max Pourshafie

**CERTIFICATION OF NAMED PLAINTIFF
PURSUANT TO FEDERAL SECURITIES LAWS**

I, Max Pourshafie (Plaintiff) declares, as to the claims asserted under the federal securities laws, that:

1. Plaintiff has reviewed the Complaint and retains Schiffin & Barroway, LLP and such co-counsel it deems appropriate to associate with to pursue such action on a contingent fee basis.
2. Plaintiff did not purchase the security that is the subject of this action at the direction of Plaintiff's counsel or in order to participate in any private action.
3. Plaintiff is willing to serve as a representative party on behalf of the class, including providing testimony at deposition and trial, if necessary.
4. Plaintiff's transactions in the Accredited Home Lenders (NASDAQ: LEND) that are the subject of this action during the Class Period are as follows:

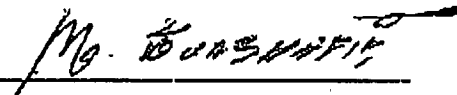

<u>No. of Shares</u>	<u>Buy/Sell</u> <u>BUY</u>	<u>Date</u>	<u>Price Per Share</u>
<u>100</u>	<u>BUY</u>	<u>11/22/06</u>	<u>30.44</u>
<u>200</u>	<u>BUY</u>	<u>11/29/06</u>	<u>29.55</u>
<u>100</u>	<u>BUY</u>	<u>12-06/06</u>	<u>29.51</u>
<u>100</u>	<u>BUY</u>	<u>12-07/06</u>	<u>28.35</u>

List additional transactions on a separate sheet of paper, if necessary.

5. During the three years prior to the date of this Certification, Plaintiff has sought to serve or served as a representative party for a class in the following actions filed under the federal securities laws: n/a
6. Plaintiff will not accept any payment for serving as a representative party on behalf of the class beyond the Plaintiff's pro rata share of any recovery, except such reasonable costs and expenses (including lost wages) directly relating to the representation of the class as ordered or approved by the Court.

I declare under penalty of perjury that the foregoing is true and correct.
